FLYSHEET

POLE BAG

PEG BAG

with 3 steel poles

with Steel pegs & Guy Ropes

ERECTION INSTRUCTIONS

- 1: Remove contents from valise and identify each item.
- 2: Assemble poles, there are 2 sections per pole.
- 3: Lay out windshield.
- 4: Thread poles carefully through the sleeve and place eyelet over the end with the shorter spike.
- 5: Starting at one end take the pole with the longer spike and place into ground, hammer pole into the ground and work along the windshield until all poles are in place.
- 6: Peg out the guy ropes. There will be a guy line for each pole.
- 7: After use, ensure tents are clean and dry before packing away. Brushing or gently washing with luke warm water will remove any dirt or stains. Never use detergents as these can affect the waterproofing of the tent. Store in a cool dry place.

FIRE RETARDANT

This Aztec tent is fire retardant proofed but, does not mean it is safe to cook or use naked flames within your tent.

WINDBREAK
